

# ZÉRO DEGRÉ

---

## MAIN TECHNICAL DATA SHEET

---

### The show :

« Zéro Degré » is a show based on urban walking about expanding to 1 kilometer for a time of 50 minutes to 1 hour.

Performers of the show use the urban environment and the architecture met through districts as game supports. Freerunner acrobats of Zéro Degré run, climb the facades and jump a roof to another.

The gauge is between 600 and 800 spectators.

# What we provide

## Team:

- Freerunners
  - Johan TONNOIR
  - Maxence DE SCHROODER
  - Anthony DEMEIRE
  - Benjamin CANTE
  - Jérémy LEMAIRE
- Artistic team
  - Julien MARCHAISSEAU : director
  - Cyril FAYARD : musical composer
  - Kévin KLEIN : scenograph
  - Brice LARRIEU (aka Skorpion) : choregraph
  - Vincent GIANNESINI (aka Zenzel) : video maker
- Production team
  - Franklin ROULOT : conceptor / producer (tel 0614484860)
  - Cyril VERNUSSE : technical and administration manager (tel 0616580917)
  - Nicolas GRIERE : general manager assistant (tel 0650304420)

## Technical tools:

**Sound:** (additional tools are needed in case of big gauge of spectators, details on page 4&5)

- 3 wagons with stretchers. Each are usable by only one person
- 3 Sennheiser LSP 500 autonomous speakers equipped in HF
- 1 AKAI MPC LIVE equipped in HF

**Scenography:** (additional tools needed, details on page 3)

- Barrier tape rolls
- Adhesives
- 300 m<sup>2</sup> red carpet
- 300 m<sup>2</sup> red scaffolding net
- Different sets (red tents, red hammocks, red monkey bridges)
- 200 m<sup>2</sup> of red tissue
- Red electrical sheath of 16 cm Dm/25m linear

# The organizer provides

## Team:

- A technician with a **aerial bucket licence** during the preparing of representations and to disassemble. Planning to define with the organizer.
- 3 sound technicians for 4 hours rehearsal services and on the operation (planning to define).

## Technical tools:

- 7 Motorola GP340 talkie-walkies with chargers and replacement batteries for the rehearsal and operation times + 5 headsets
- A technical space. Technical equipment can be stocked in this local. Failing, plan an utility to load and unload the material every day.
- Secured private lodges on the operation area. We prefer taking our meals in these lodges to maximize work time on the playground.
- A « production office » with a wireless connection.

## Scenography:

- 2 Parisian scales
- 1 stool
- 1 trolley with wheels
- 1 self-propelled aerial bucket. Height : 20m to 30m with the technician holding the aerial bucket licence during the preparation of rehearsals and to do the disassembling.
- 2 to 3 handyman and resourceful volunteers on all the presence of the team. N number of days for preparing, N number of days for the performing
- 30 red & white roadway barriers
- 30 red & white site beacons
- 10 pig moulds

# Specific needs for heavy gauges of spectators

In the case of a high gauge exceeding 1200 spectators and depending of the playground architecture, we ask for a additional sound configuration to guarantee a listening comfort for the audience and the performers.

- 1 sound engineer during the show to regulate the material and guarantee a efficient operation
- 6 sound technicians to manipulate the two wagons
- This material:

## LEFT system of sound:

- 2 Sub L-Acoustics SB18 Single 18 "
- 2 SB18 Cover
- 2 SB18 Dolly
- 3 L-Acoustics Kara Line Array speakers
- 1 Kara L-Acoustic M-BUMP Deckle

- 2 middle size Ratchet Straps
- 1 « 4 canals » amplified Controller - L-Acoustics LA8
- 3 speaker cables NL4 - 3m
- 2 linking speakers cables NL4 - 0.7m
- 1 IEM Sennheiser G3 4 canals Support System
- 1 Sennheiser G3 Antenna Combiner
- 3 IEM simple Sennheiser G3 Transmitters
- 3 Sennheiser G3 Single IEM Receptors
- 3 Sennheiser IE4 IEM Headsets
- 1 Directional Antenna Sennheiser G3
- 1 Antenna Extension Cable UHF 50 OHM - 7m
- 3 SENNHEISER EW 572 G3
- 2 SENNHEISER A1031 U
- 2 SENNHEISER AB 3
- 2 SENNHEISER GZL5000 A-5
- 1 SENNHEISER ASA 1
- 1 SENNHEISER NT1-1
- 2 SENNHEISER GA3
- 4 Jack Adaptators ->T4
- 1 silent Generator 240v 12A Honda EU30IS

**RIGHT system of sound:**

- 2 Sub L-Acoustics SB18 Single 18 "
- 2 SB18 Cover
- 2 SB18 Dolly
- 3 L-Acoustics Kara Line Array Speakers
- 1 Kara L-Acoustic M-BUMP
- 2 middle size Ratchet Straps
- 1 « 4 canals » amplified Controller - L-Acoustics LA8
- 3 speaker cables NL4 - 3m
- 2 linking speakers cables NL4 - 0.7m
- 1 silent Generator 240v 12A Honda EU30IS
